

ENVIRONMENTAL POLICY

The fight against climate change is one of the main challenges and should be a priority for the tourism industry. That is why at R2 Hotels we are committed to this problem and we have set ourselves some objectives to make it a reality.

Our objectives for 2022 are to reduce our carbon emissions, water consumption and waste generation by 15%.

Measures we will put in place

- Customer and staff awareness signage on information screens.
- Low-energy light bulbs installed throughout the property.
- Monitoring the amount of water and energy consumed, detecting possible breakages and leaks.
- Periodic training of our employees to raise awareness of this issue.
- Monthly follow-up audits by the Quality Department and Management to check compliance with the stipulations.
- Occupancy control, which determines the allocation of rooms on each floor.
- Waste control, through the purchasing department and the kitchen, with the support of customer and staff awareness.
- Good preventive maintenance of our equipment.
- On and off time controls in tune with daylight hours.
- Reduction of corporate travel by encouraging online corporate meetings.

Minimise pollution caused by our business operations

- New models of environmentally friendly household appliances.
- Correct recycling of waste and supervision of this.
- Reducing chemical cleaning products, looking for more sustainable alternatives.
- Reduction of plastic in general, search for other alternatives.

Conservation

- Support for local initiatives to clean beaches, preserve native fauna, preserve native flora in the hotel gardens.

We train our employees and seek to raise awareness and involvement among suppliers and customers on this issue.

Our actions are communicated through our information screens, customer information folders, e-mails, staff meetings and posters.

Quality Manager, July 1st 2022
